

# LifeWatch ERIC in a nutshell

# What is LifeWatch ERIC

**LifeWatch ERIC's vision** is to Become the Research Infrastructure providing access to the world's biodiversity content, services and communities in one click.

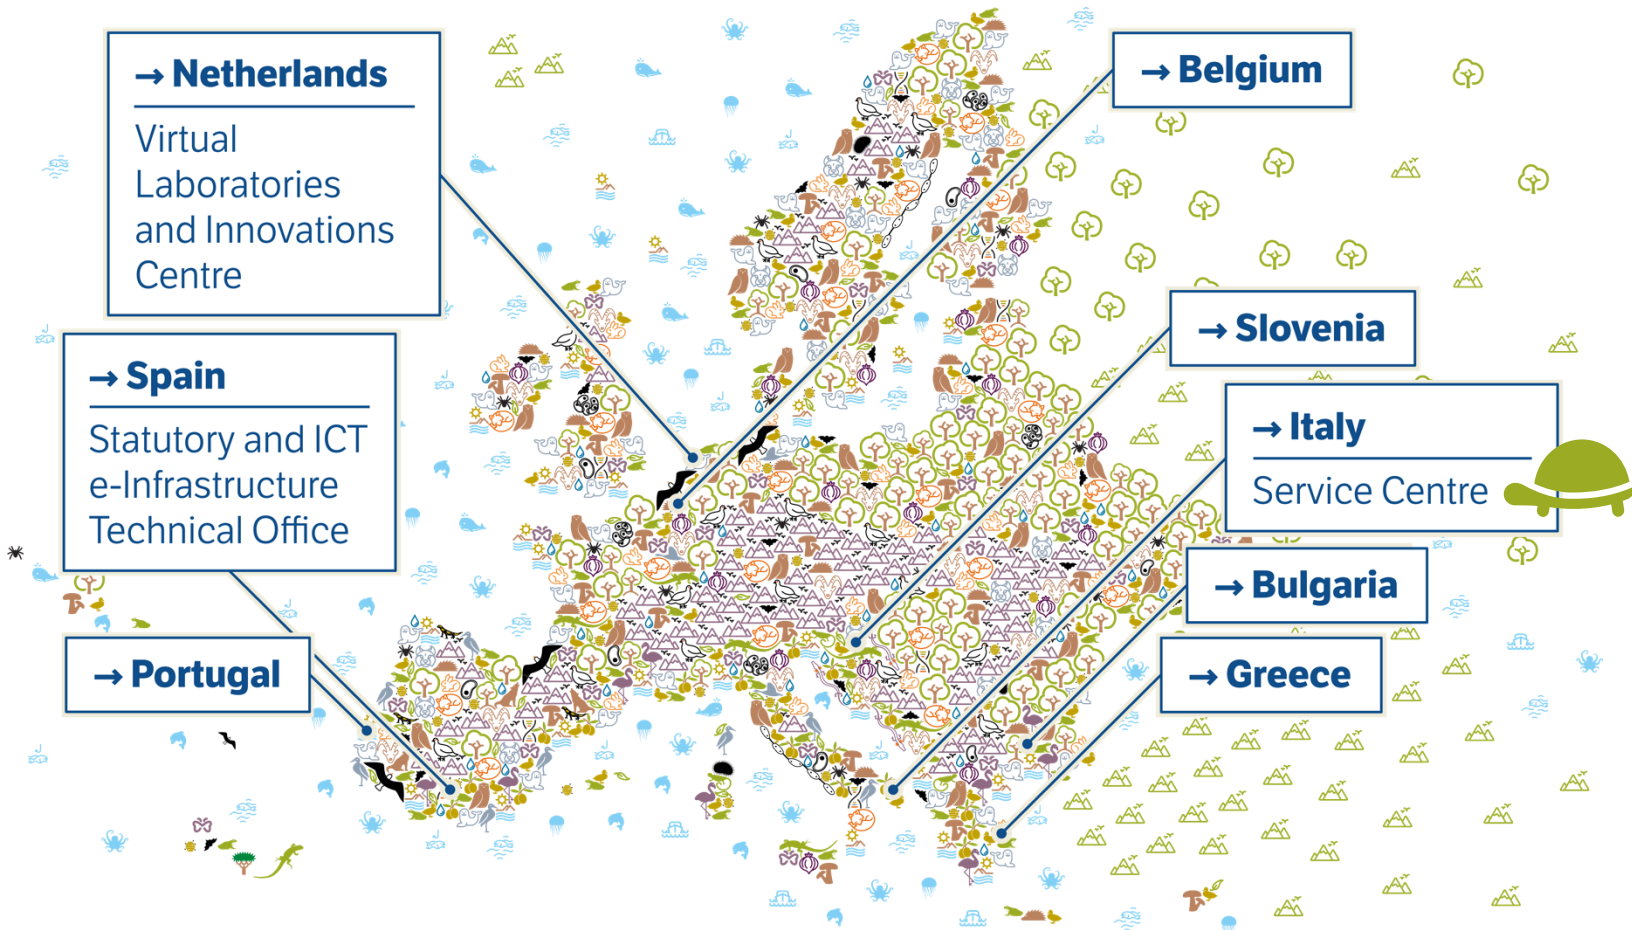

**LifeWatch ERIC's mission** is to accelerate the research efforts of the scientific community by delivering a European state-of-the-art e-Science Research Infrastructure on biodiversity and ecosystems.

The **goal** of the **LifeWatch ERIC infrastructure** is the construction of virtual "workbenches" with e-services that allow its user communities to analyse patterns and trends in biodiversity in space and time, its (natural or man-made) drivers and the impacts on ecosystems.

# LifeWatch ERIC Common Facilities & Members

# Service Centre Overview

# Service Centre

## ACCESS POINT

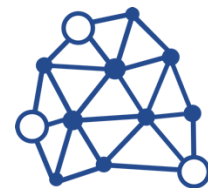

Front and back-end interface for data and services users and providers

Hosted by  
**University of Salento**  
**(Lecce, Italy)**

Director  
**Alberto Basset**

PROJECT  
MANAGEMENT

INVOLVEMENT OF  
SCIENTIFIC  
COMMUNITY

COMMUNICATION

TRAINING

# Areas of competence

Administration,  
Management and  
projects

Communication  
and Outreach

Training

Scientific  
Community  
Networking and  
stakeholders  
engagement

User Experience,  
FAIR technologies  
and Open Science

# The functions

ICT

## User Experience, FAIR Technologies & Open Science

- User Experience
- Metadata Catalogue
- FAIRness
- Semantic Artefacts
- Thematic Core Services
- Help Desk
- EcoPortal

COMMS

## LifeWatch ERIC Communication and Outreach (design and implementation)

- Communication and Branding
- LifeWatch ERIC Web Portal
- Social media management
- LifeWatching TV & Podcasts
- Comms material production and distribution
- Implementation & Monitoring of external comms activities
- Coordination with NDCs
- EU Projects

SCNO

## Scientific Networking and User Engagement

- Users Networking Strategy
- Stakeholders mapping and targeting
- LifeWatch ERIC Community Platform
- Scientific Networking and Stakeholder Engagement in EU Projects

TRAINING

## LifeWatch ERIC Training (design and implementation)

- Production and curation of training platform, catalogue and resources
- Coordination of training initiatives with CFs and NDCs
- Design and organisation of training events
- Staff training and professional development initiatives
- Support to internationalisation of Joint Master's programme

ADMIN

## Administration, Management and EU projects

- Administrative, financial and HR procedures, including for EU Projects

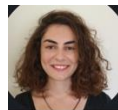

# The team

**Lucia Vaira**

ICT Coordinator

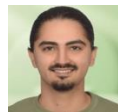

**Eftychia Tzafesta**

Data Scientist Specialist

**Majid Fiaz**
